

**Rafael A. Perez**

Received the Ph.D. in Electrical Engineering from the University of Pittsburgh, Pittsburgh, PA. He is presently Professor of Computer Science and Engineering at the University of South Florida in Tampa, Florida, where he teaches courses in neural networks, expert systems, and operating systems. His research interests include the application of artificial intelligence techniques to industrial problems with large databases. He has been the primary investigator in numerous research projects to develop intelligent systems for industrial applications and is the author of many papers in that area. Before joining the University of South Florida he worked for the Westinghouse Research Laboratories and for the Westinghouse International Corporation. His website address is <http://www.csee.usf.edu/~perez> which includes a complete list of research projects and publications.
