

Claudio Kirner

He received the B.S. degree in electrical engineering from EESC/USP-Brazil in 1973, the M.S. degree in electronic engineering from ITA_Brazil in 1978, and the Ph.D. degree in systems engineering and computer science from COPPE/UFRJ-Brazil in 1986. He is Professor in Computer Science Faculty at Eurípides Foundation of Marília – Brazil and Director of the Advanced Computing Institute / Research Center of São Carlos – Brazil. He visited the Silicon Graphics Technical Center, located in Fort Lauderdale, Florida - USA, concentrated on studying parallel processing and graphics programming, during the period from October 1992 to March 1993. He was also a research visiting professor in Computer Science Department, University of Colorado at Colorado Springs - USA concentrated to work with virtual reality and parallel processing, during the period from September 1993 to August 1995. His research interests involve parallel and distributed computing, virtual reality and distance education. He is member of ACM, IEEE, and SBC (Brazilian Computer Society) and coordinates two international cooperation agreements related to Virtual Reality, involving GMD and ZGDv in Germany and other Institutions in Brazil

**Juliano R Ipolito**

B.S. degree in Computer Science from UFSCar – Brazil, 1998; M.S degree in Distributed Systems from UFSCar – Brazil, 2000. His research interests include distributed computing, computer networks, distance education and virtual reality.
